VEGETINE

FOR

Chills, Shakes,

FEVER AND AGUE.

TARBORO, N. C., 1873.

DR. H. R. STEVENS:—

Dear Sir—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle, he could not move without crutches or cane. He is twenty years of age. I have a younger son fifteen years of age, who is subject to Chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.

Respectfully, MRS. J. W. LLOYD.

VEGETINE.—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

VEGETINE

FOR

Dyspepsia, Nervousness,

AND GENERAL DEBILITY.

BERNARDSTON, MASS., 1870.

We, the undersigned, having used Vegetine, take pleasure in recommending it to all those troubled with humors of any kind, dyspepsia, nervousness, or General Debility, it being the Great Blood Purifier. Sold by R. L. Orowell & Sons, who sell more of it than all other patent medicine put together.

MRS. L. F. PERKINS.
MRS. H. W. SCOTT.
JOSEPHUS SLATE.

VEGETINE is the great health restorer—composed exclusively of barks, roots, and herbs. It is very pleasant to take; every child likes it.

VEGETINE

FOR

NERVOUS HEADACHE

And Rheumatism.

CINCINNATI, O., April 9, 1877.

H. R. STEVENS, ESQ.:—

Dear Sir,—I have used your Vegetine for nervous headache, and also for rheumatism, and have found entire relief from both, and take great pleasure in recommending it to all who may be likewise afflicted.

FRED. A. GOOD,
108 Mill St., Cin.

VEGETINE has restored thousands to health who had been long and painful sufferers.

VEGETINE.

DRUGGISTS' TESTIMONY

MR. H. R. STEVENS:—

Dear Sir,—We have been selling your remedy, the Vegetine, for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. It certainly is the re plus ultra of renovators.

Respectfully,
E. M. SHEPHERD & CO., Druggists,
Mt. Vernon, Ill.

Is acknowledged by all classes of people to be the best and most reliable blood purifier in the world.

WEDNESDAY, APRIL 3, 1878.

GENERAL NEWS.

FROM WASHINGTON.

THE GENEVA AWARD.

WASHINGTON, April 2.

The House Judiciary Committee, as anticipated, today agreed to report a bill referring war premiums and insurance cases to the Court of Claims, to be settled upon principles of equity and justice. This will give all claimants equal recognition in the distribution of expended balance of the Geneva award.

REPUBLICAN SENATORS AND THE PRESIDENT.

A number of Republican senators and members are stoutly opposed to any further dealings with the President. But the more moderate deprecate such a radical step without making a final effort to secure Executive co-opperation in party measures. They claim that by so doing the people will be able to judge where the responsibility lies in the event of defeat. It is suggested that a caucus committee call upon the President with this view.

MONTGOMERY BLAIR'S DEMONSTRATION.

The Bourbon Democrats are much elated over the passage by the Maryland Legislature of the Blair resolutions directing the Attorney General of that State to commence proceedings in the Supreme Court of the United States for ousting President Hayes. They were lost in the Maryland Senate early last evening for want of a constitutional majority, but later in the night Mr. Blair's perseverance was rewarded by success. The resolutions were passed by a vote of 14 yeas against 8 nays, and the Senate was rewarded by a terrapin supper ordered by Mr. Blair, and doubtless paid for by Mr. Tilden.

A VIGOROUS PROTEST.

State Senator Steiner vigorously protested against the passage of the resolutions, calling attention to the fact that Mr. Hayes had been recognized as President by the Governor of Maryland when there was need of his help to quell the July riots, and when a Senator on this floor desired the honor of a commission to the Paris Exposition. He was President when danger threatened and when honors are to be divided, but at all other times a fraud. Are the skirts of Maryland so clear from the charges of election frauds that she can assume the privilege of calling evil doers to judgment? Nay, there are those who conscientiously believe that the present Governor of Maryland, and the very Attorney-General who is called upon to be the incarnation of Maryland in these proposed legal proceedings, hold their offices only because of fraudulent practices at the ballot box in 1875.

Do we enjoy, he asked, the reputation of such exceptional freedom from the crime known as the "Rape of the ballot box" as to fit us pre-eminently well for undertaking the wonderful task contemplated by this resolution? In conclusion he protested against it all, was willing to let the author of the resolution attain all the notoriety possible by the effort to stir up the people by his chronic cries of fraud, but he wanted the State of Maryland not to pay the part of a Don Quixote to Mr. Blair's Sancho Panza.

SPEECH OF GEN. BURNSIDE ON THE COLORED REGIMENT'S BILL.

The speech of Gen. Burnside in favor of abolishing exclusive colored regiments in the army and throwing all the barracks of the military service open to colored men, attracted general attention. The subject went over, but will lead hereafter to considerable debate. Mr. Banning has a proposition in the House military bill designed to exclude them from the army entirely, and Gen. Burnside's proposition is one that the Republicans will antagonize to that of the House.

EASTERN WAR PROSPECT.

ENGLAND'S NOTE TO THE POWERS.

Immense War Supples.

THE RUSSIANS FORTIFYING.

NEW YORK, April 2.

The European political advices this morning continue to be of a disturbing character.

Queen Victoria's Note to the European powers, rejecting the congress and the San Stefano treaty, creates a sensation on the continent.

England is still preparing immense war supplies, and the Russians are fortifying.

The financial advances reflect the serious condition of public affairs. Consols for money declined ⅜, and consols for account ¼ per cent.

The market for European securities opened very heavy. American bonds alone are firm, the new five-per-cents having advanced slightly.

In Paris, rents have dropped fifteen centimes, and the bourse is excited and flat.

EASTERN TROUBLES.

RELATIONS OF RUSSIA AND ENGLAND.

Russian Offers to Turkey.

LONDON, April 2.

The St. Petersburg correspondent of the Times says Austrian views are so exorbitant that the Russian chancellery, to prevent an offensive alliance between Austria and England, is about to make another attempt to come to terms with England.

A despatch from Berlin says Bismarck is going to his Lauenburg estates shortly, unless detained by the Eastern question.

It is stated from Vienna and St. Petersburg, on unusually good authority, that Russia is irritated by a rebuff from France. The latter being approached for separate recognition of the treaty of San Stefano, replied she would not participate in a combination against England.

LONDON, April 2.

Latest advices from Constantinople, dated April 1, evening, says that a strong conviction prevails at the Russian headquarters that an Anglo-Russian war is inevitable. It is reported that Russia has offered to cancel the money indemnity and increase the Turkish powers over New Bulgaria as a reward for an alliance, but these offers have not led to any result.

THE GRAND DUKE.

Grand Duke Nicholas held a reception of the Diplomatic body on Sunday. The British and French Ambassadors sent cards. The Grand Duke returns to his headquarters at San Stefano on Wednesday.

FRANCE WILL NOT OPPOSE ENGLAND.

It is stated from Vienna and St. Petersburg, on unusually good authority, that Russia is irritated by the rebuff from France. The latter being approached for a separate recognition of the treaty of San Stefano, replied she would not participate in a combination against England.

NOTES.

A dispatch from Berlin says that Bismarck is going to his Lavenburg estates shortly, unless detained by the Eastern question.

GREAT BRITAIN.

ALL NIGHT SESSION OF THE COMMONS.

LONDON, April 2.

The Commons sat through the night until six o'clock this morning, in consequence of obstructive opposition by some of the Irish members to the Irish Sunday-closing bill.

English Purchase of Horses.

NEW YORK, April 2.

It is again reported from Chicago that English agents throughout the West are buying 20,000 horses ostensibly for street cars in Scotland and England, but judging by the character of the animals they select they are intended rather for active movements than for draft purposes. They have bought 500 at Chicago.

CHINESE IMMIGRATION.

The Indemnity Funds.

WASHINGTON, April 2.

The Senate Foreign Relations Committee, some time engaged in the consideration of the Chinese question, have practically decided that any legislation to prevent immigration of these people to the United States would be equivalent to the abrogation of the treaty.

There is a strong disposition in both the Senate and House Foreign Committees to return to the Chinese and Japanese governments the indemnity funds now held by our Government.

Hon. Butler's Views.

BOSTON, April 2.

B. F. Butler has addressed a letter to the Boston Herald stating he favors the stopping of the funding of the public debt in order to meet the expected deficit of twenty millions in the government revenues, and he is surprised that New England and New York congressmen by opposing the proposition, apparently invite the imposition of the income tax.

NEW BOOKS.

VOYAGE OF THE PAPER CANOE: A Geographical Journey of 2,500 Miles from Quebec to the Gulf of Mexico, during the years 1874-5. By Nathaniel H. Bishop, author of "Our Thousand Miles Walk Across South America," etc. Boston, Lee & Shepard.

This is an interesting and valuable book. The writer left Quebec in a canoe eighteen feet in length in 1874, and pursued his way southward through natural and artificial water courses to the Gulf of Mexico. He came down Lake Champlain and the Hudson to New York, and thence through canals and the Raritan to Philadelphia, descending the Delaware to Capes May and Henelopen, and skimming along the coast through bays and creeks and inlets by way of Charleston and Savannah to the Florida coast. He explored the Suwanee, St. Mary's and other rivers, and as a matter of course had many curious and interesting experiences which are here told in a most entertaining manner. The book contains 350 pages and affords an amount of valuable information not to be easily found elsewhere. It is proof positive that the author knows how to do two things, viz: "paddle his own canoe" and write a book. For sale by C. E. Hammett.

PRINCESS EVE; By Clementine Helm. Translated by Rosa Sachs. Lee and Shepard.

This is one of the volumes from the press of these enterprising publishers which goes to make up the popular "Young Folks Library." It appears to be a bright and sparkling story and worthy of a place in the series. It is also on sale at Hammetts.

SICILA, published also by Lee & Shepard.

This is a curious book and appears as the translation of an ancient manuscript found in a tomb supposed to be of one of the sons of Noah. It gives a graphic account of the great deluge and scenes and incidents connected therewith as though written by an eye witness, the whole woven into a story abounding in incident and anecdote. The style is good and the peculiarities of the work attractive.

THE ROCKY MOUNTAIN TOURIST, just from the press, is an artistic gem. In point of engravings, printing and description it is the handsomest publication of the character that we have seen. There are in this work no less than sixteen of Thomas Moran's exquisite drawings, and among them his famous reproduction of the Mount of the Holy Cross. Of Moran's other matchless drawings are those of Grand, Glen, Marble, Knab and Boulder Canons, Twin Lakes, Tocalli Mountains, etc. Joseph Heard is represented by characteristic hunting sketches, Bisbing by several exceedingly attractive mountain sketches, Lancelot by spirited drawings of the remarkable rock-sculpture on White River, and Henry Worrall by full page views at Veta Pass and Wagon Wheel Gap. The engravings are the most part large, the full quarto pages of the Tourist enabling the showing to the finest advantage of plates seven by ten inches. Containing no advertisements of whatever character, the new Rocky Mountain Tourist is fit companion to Picturesque America in any gentleman's library. Specimen copy may be had without cost by writing to W. F. White, Topeka, Kansas.

The XIXieme Siecle says, "The colossal statue of 'Liberty Lighting the World,' erected by France and America in remembrance of their old friendship, is coming out little by little from the immense workshops established expressly for its construction in the Rue de Chazelles, No. 37, near Monceaux Park. The arm and hand holding the torch are already in America; and at present the sculptor, Bartholdi, is finishing the principal portion of the head. The first sentiment inspired by the enormous head, nearly thirty feet high, is almost terror. Its gigantic dimensions are stupefying: but by degrees the eye becomes accustomed to the colossal forms, and the mind reconciles itself to the extent of those great lines, and we discover in the midst of them the majesty and the light which the author has endeavored to give the features. But the public will soon have an opportunity to see the beauty of this work, for the head of the statue of Liberty is to be exhibited at the Universal Exposition. Nevertheless, we strongly advise every one beforehand to visit the establishment on the Rue de Chazelles and see how the different portions of this head are prepared, worked and adjusted. M. Bartholdi is making copies in plaster of his statue of Liberty. Two hundred of them only will be executed, numbered and registered with the name of the purchaser, who may in this way perserve a souvenir of this magnificent monument commemorative of the centennial anniversary of the independence of the United States, and destined to renew and enliven the old friendship between France and America.

L. D. DAVIS,
Daily News Office.

Jan24

The Newport Daily News and the Newport Journal.

The Newport Daily News is published every afternoon, (Sundays excepted,) at the News building, 18 Church street, by Davis & Pitman.

The Newport Journal is published at the same office every Saturday morning, and contains a selection of the best matter in the Daily, including editorial discussions of the topics of the week, literary miscellanies, and at least one good story, the latest markets and a complete and comprehensive summary of the news,—local and general. The Journal is a large, 32 column paper, and contains a large amount of reading matter that is valuable to readers in town or country who desire a good Newport paper, but who do not take a daily from this city.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The Daily News, $5 per annum, or 12 cents a week, payable to carrier.

The Newport Journal. Terms $2 00 a year. A discount of 50 cents is made when the WHOLE YEAR is paid STRICTLY IN ADVANCE. These terms are invariable.

ADVERTISING RATES.

Ordinary advertisements, $1 a square, for the first insertion, and 25 cents for each continuance. Ten lines or less, in this type, make a square. Advertisements in reading matter, are charged for, at 50 per cent. extra, and are subject to editorial revision. A discount on these rates is allowed on all advertisements ordered in the daily for one week or longer. Funeral notices 50 cents each. Yearly advertisers are limited to their immediate business and are allowed twenty five changes a year. No gratuitious advertising for any object. The circulations of the News and Journal being necessarily distinct, an advertisement inserted in both papers will reach entirely different sets of readers. As further inducement for advertisers to use both the News and Journal, a liberal discount on the combined rates is made.

PRINTING.

Connected with the News is a large and well appointed job printing office. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

TO OUR PATRONS.

The publisher of the Newport Mercury has taken occasion, publicly and privately, to misrepresent the circulation of our papers as well as his own. In justice to ourselves and our advertisers, we have publicly denied the truthfulness of his statements and made a proposition to submit the proofs to a disinterested and impartial tribunal, which he declines, though persisting in his false statements. He probably refuses to exhibit his books in comparison with our own for the following reasons:

1.—They will show that he has not one half the circulation which he persistently and publicly claims.

2.—That we have more than three times the circulation that he ascribes to us, both in the city and county of Newport.

3.—That his circulation is less now than formerly and has been subject to a steady decline.

4.—That ours has regularly increased and is now larger than ever before.

THE DAY.

Vote!

Vote right!

Vote for the best men!

Vote for the best interest of the country!

Vote in the interest of peace, good will and the prosperity of all classes!

Those who have not voted should do so at once. The opportunity will soon be past.

What our physicians think concerning a board of health in this city will be learned by reference to the proceedings of the City Council.

Farmer Lawrence does well to put himself in training for the high office of Governor. He will be elected if he gets votes enough.

Messrs. Moody and Sankey are drawing large crowds in New Haven. Sunday night the great building, which will hold five thousand people, was filled in three minutes after the doors were opened.

Somebody sent an anonymous dispatch to Providence, that Newport would wipe out the majority for Van Zandt in this city. When the returns come in he will be happy to think that his name was not given.

The Democrats complain that they have no organ; but, gracious, haven't they had the "big guns?"—[Providence Journal.

Yes but the big guns don't speak, at the proper time. Only the pop guns go off.

Gov. Van Zandt has made a good officer. No one has had occasion to complain of his administration, and he should be re-elected by a large majority. His friends should rally at the polls in full force and give him a good send off.

It will be seen that the City Council took action last evening looking to the removal of the automatic fog horn that proves so great annoyance to our people and of so little benefit to sailors. We trust the petition will be favorably received at Washington.

The weavers in some of the Fall River mills have struck. We are sorry that prices have come down to so low a figure, and that these laborers feel the pressure, but there is no help for it. So far as we know the decline is universal except in the case of barbers and milkmen who still maintain war prices.

His Honor, Mayor Bedlow has finally responded to the pressure for an investigation into the condition of the Murray premises where the late fatality occurred. By employing Col. Waring as an expert he has found that the statements which the News made on medical authority as to the condition of the premises is correct. We do not publish the report for two reasons. First, because it contains nothing pertinent to the cause which we have not already given to the public, and secondly because the Mayor has seen proper to furnish the report to newspapers abroad where it is printed as an official document in advance even of its presentation to the City Council. We have no controversy with His Honor over questions of courtesy in matters of this kind, though not quite indifferent to them.

It is hard telling what is to come from the Eastern complications. The news continues of an exciting character. It is reported from St. Petersburg that England's circular has greatly increased the irritation there, and that the Russian imperial staff has been ordered to prepare for war. At Constantinople a strong conviction prevails that war with England has now become inevitable. It is reported that the Russians have offered flattering concessions to the Sultan in the hope of forming a Turkish alliance against Great Britain. France is reported to have declared that she will not participate in any combination against England. Constantinople advices state that the Russians have commenced a fresh movement toward Gallipoli, and that their troops north of the Balkans are approaching nearer the Danube.

Rev. Dr. Morrison, Presiding Elder, visits this portion of his district during the present week. He will be at the First Methodist Episcopal Church on Thursday evening, at Thames-street on Friday, and at Middletown on Saturday, where he will also spend the Sabbath. Dr. Morrison has been in charge of the district four years, and this is his last official visit. We hear Rev. Dr. Talbot spoken of as his probable successor, and no man will be more welcome to those interested.

This Mr. Barrett has done.

NEW PUBLICATIONS.

The April number of the Eclectic Magazine contains sixteen articles, besides the four editorial departments. "The March of an English Generation through Life" is a paper of English vital statistics; "The New Star which Faded into Star-Mist" is one of Mr. Proctor's instructive studies in popular astronomy; Prof. Goldwin Smith's paper on "The Proposed Substitute for Religion" deals with a subject of interest. Of the war, there are two good papers, "Over the Balkans with General Gourko," and "Constantinople," by James Bryce. Other articles are, the beginning of a series by Taine on "France before the Outbreak of the Revolution;" a biographical sketch of "Count Cavour;" "Professor Huxley on the Degeneracy of Modern Opinion;" "Keats' Love-Letters;" and a narrative of "A Ride for Life." A sketch (with portrait) of Professor Marsh; three or four poems; additional chapters of Mr. Black's story, "Macleod of Dare;" and well filled editorial departments complete a number of variety and interest. Published by E. R. Pelton, 25 Bond street, New York. $5 per year; single copies, 45 cents. Trial subscription for three months, $1.

BLACKWOOD EDINBURGH MAGAZINE for April contains more chapters of its excellent serial "Mine is Thine," an able paper on "The North American Fisheries and the Halifax Commission," some interesting notices of "New Books" another article on "French Home Life," this time being on the "Home Influence of Women," a story "Only Jean," which contains a beautiful description of Scottish scenery, the tenth paper on "The Storm in the East" and a timely article on "England and Russia." This magazine is one of the best published in certain respects.

BABYLAND for April has a charming picture of the cat who adopted the ducklings, with a story giving the particulars of the wonderful event. The little magazine for the wee people will give any child a desire to read, and be the best help a school teacher can have.—The price is only fifty cents a year.

THE NURSERY is another of the children's blessings and the April number seems especially good, filled with stories, and pictures of childlife. This magazine is as instructive as entertaining.

The Vanderbilt will case drags along, and the public has lost pretty much all interest in it. Cornelius, the contestant, the champion money-borrower, is one of the unfortunates who has few friends and no public sympathy, though there is a general feeling that he has been badly used. The Vanderbilt's are not popular, and William H., the present representative of the family, has done nothing to win public favor. I think that nobody would care much if he lost the case and the will was smashed. But no man of real sensibility or family pride would have allowed the disclosures made in this trial respecting his dead father and the private affairs of his family to go out before the public for one million dollars. If the old commodore has not found a hell on the other side, he has only to revisit the pale glimpses of the moon to be abundantly accommodated in that respect. This will business is getting to be very serious. It is perilous to leave money by a will. Somebody is sure to go for both, and there are lawyers enough standing ready to make a fortune by dissipating the fortunes of other people. Mr. Wood, who left a handsome property and devised a million dollars to build and endow a conservatory of music, would be astonished could he know that another Wood, a man not an heir and in no way connected with him, is contesting the will. Such things invest the death of rich people with new terrors.

In Paris they suppress caricatures of Bismarck; his photographs are sufficient.

—Mr. J. M. Hodgson, a New York florist, has in process of erection a new greenhouse at the corner of Bellevue and De Roy avenues. The frame work is completed and is awaiting the glazing, which will probably be added in a few days. We understand that it is also his intention soon to erect a dwelling-house, for his own use at the same place, which will add much to the appearance of the locality.

—Warrants have been served on James Mahony, Joseph McLyman, Thomas Breen, and James Alderson for malicious mischief. Two additional warrants have been issued against Alderson, one being for assaulting Sarah Leary at her residence on William street and the other for obstructing Officer Albro in the discharge of his duty. He had quite a tussel with the officer Monday night.

—The plate stolen from the summer residence of Miss Wolfe (of New York, on Pelham street, was found yesterday buried in Dr. Butler's garden where it had been hid by the thieves. A workman was engaged in digging the garden when he suddenly came across the silver ware, &c. The officials were notified and the articles taken into Dr. Butler's house.

Chief Engineer Cozzens and several of his assistants were also present.

DEMOCRATIC CAUCUS.

At the close of the mass meeting at the Opera House last evening the Democrats held their caucus. In accordance with previous announcement James Rudolph, was chosen chairman and John P. Read, secretary. Gen. John Alfred Hazard was nominated for senator and the following gentlemen were placed on the ticket for representatives:

1—George W. Taylor.
2—John Myers.
3—George Van Wilbour.
4—William P. Congdon.
5—William J. Underwood.

REPUBLICAN CAUCUS.

The Republicans assembled at the State House last evening for the purpose of nominating one senator and five representative to the General Assembly. The meeting was called to order by Mr. Clark H. Burdick, chairman of the city committee. Hon. William J. Swinburne was chosen chairman and John J. Peckham, secretary. The following nominations were then made:

Senator—T. Mumford Seabury.
First Representative—W. P. Sheffield.
Second " Henry H. Fay.
Third " William Gilpin.
Fourth " A. P. Sherman.
Fifth " C. H. Burdick.

Col. T. W. Higginson was nominated for first representative but a hand vote showed that Mr. Sheffield was the choice of the meeting.

The tallest man in the country is John Farwell of Houston, Texas, who measures seven feet six inches on his bare feet. He must be the identical "Farewell, a long Farewell," mentioned by old friend Shake.

DEMOCRATIC MASS MEETING.

A NOTABLE GATHERING AT THE OPERA HOUSE.—A GREAT CROWD AND GREAT ENTHUSIASM.—A GREAT MANY UNABLE TO GET IN.—THE "BIG GUNS" FAIL TO PUT IN AN APPEARANCE.—THE CANDIDATE FOR GOVERNOR BEING WANTED IN PAWTUCKET WAS NOT PRESENT.—SPEECHES BY "YOUNG DEMOCRATS."

The long-talked of Democratic and Conservative rally was held at the Opera House last evening. The building was packed some time before the curtain went up, and a large number were unable to get in. These took their departure, but went quite willingly when they found that John E. Ward, of New York, Judge Abbott, ex-Mayor Prince, Hon. Leverett Saltonstall, Gen. P. A. Collins and others from the Hub had not come to time.

The Newport Band, Prof. J. F. C. Smith, was on hand early in the evening and played choice selections in front of the Opera House which filled the square with spectators of all classes.

On the platform we noticed many of our well-known citizens who showed by their presence the interest which they felt in the campaign. Ex-Mayor Atkinson was chairman of the meeting and expressed his regrets at the inability of the speakers from abroad to be present.

The first speaker introduced was Mr. G. E. Gorman of Providence who talked for about 40 minutes. He pitched into Gov. Van Zandt and as might be supposed praised the Democratic nominee, Mr. Lawrence. He refuted so called slanders against the Democratic candidate which had been uttered by the Providence papers, and referred in eloquent terms to the poor class who were deprived of their rights by the Republicans, rights which belong to them under the constitution. Mr. Gorman referred to the great wealth and industrial interests of the state and showed that it was the working element that had brought about this marked prosperity, or at least of a few who had amassed their millions. He did not think it a good thing for a few to have all of the money. He devoted about 20 minutes to the question of taxes showing that the poor, those who were able to build a humble home over their heads, were taxed more in proportion than the rich, and that they were also obliged to pay a higher rate of interest than those having millions at their disposal.

In the course of his speech Mr. Gorman paid an eloquent tribute to Mr. Lawrence and to his honored parent who was on the platform, and he had no doubt but that if the people in Newport went to the polls in earnest Mr. Lawrence would be elected. The speaker was frequently applauded but it was evident that the people present would have been more pleased had he addressed them more plainly upon the live issues of the day. The band then played an appropriate selection.

Mr. Thomas Riley, of Boston, was the next speaker. He occupied the time principally in pitching into the Republican party at large for cheating Samuel J. Tilden out of the Presidency. He tried to show that Mr. Hayes occupied the seat which belonged to Mr. Tilden; that the latter had secured it by and through the people and that Mr. Hayes had it given to him by the Lousiana Returning Board and the Electoral Commission. This was accompanied with the threat of civil war. He was surprised to know the slender majority by which the Republican ticket was elected in Rhode Island last year, and he thought it would be a shame if the majority was not wiped out entirely this year. Massachusetts had wiped out a Republican majority of 70,000 and had succeeded in placing Hon. William Gaston in the gubernatorial chair and this should be imitated by the Rhode Island Democrats today. He spoke in high terms of Mr. Lawrence and thought he was a very respectable looking candidate and one who, if elected, would reflect credit upon his illustrious sire and upon the State as well.

The next speaker was Mr. C. T. Russell of Boston, who, after speaking in admiration of Hon. W. B. Lawrence and the Democratic ticket excused himself from discussing the matter before the meeting, owing to his health. It was evident that Mr. Russell was suffering severely from hard work during the past week while conducting the democratic campaign elsewhere.

Three rousing cheers were then given for Mr. Lawrence and three more for the speakers, after which the band played and the "Great Democratic and Conservative Rally" was over.

CITY COUNCIL.

There was a full attendance of both boards of the City Council at its regular monthly session last night, with Mayor Bedlow in the chair, and although the business was pushed through, the session did not end until a late hour.

The first business on the table was the reading of Finance report No. 10, of which the following are the totals of the several departments in the line of expenditures:

Newport Asylum	$ 485.11
Streets and Highways	1,202.50
Fire Department	310.50
Salaries	200.00
Ward Meetings	20.45
Gravelly Point Wharf	24.00
Jewish Synagogue Fund	1.67
Dog Fund	40.60
Books, Stationary and Printing	162.19
Incidentals	191.25
Police	1,147.60
Public Schools	8,503.06
Paupers and Vagrants	671.48
Lighting Streets	759.76
Incidentals (additional)	12.50
Total	$13,760.92

A petition from Wm. C. Tennant and others, was read and referred to the appropriate committee asking the City Council to refuse back licenses to parties who come from Providence and elsewhere during the summer season only for the especial purpose of running their own conveyances, which they bring with them and leaving as soon as business declines.

A resolution was read and immediately passed fixing the salaries of city officials for the ensuing municipal year as follows:—

Mayor	$1,000
City Treasurer	1,000
Street Commissioner	1,100
City Marshal	700
Superintendent of Public Schools	2,000

The report of the Board of Firewards, for the quarter ending March 1st, 1878, was read and received.

A petition of Joseph Bradford & Co., relative to the purchase of a quantity of crushed stone on Coaster's Harbor was referred to the Committee on Streets and Highways. Also a petition of George H. Popple, agent of Charlotte Brightman, for permission to excavate on Cross street and to connect her cellar with the common drain.

A communication from His Honor the Mayor was read, relative to the suspension of Officer Dring, for refusing to obey orders, and his reasons for so doing.

A communication was read and received from Officer Dring, apologizing to the mayor and city council for his action and haste in refusing to obey the orders of the mayor, stating as an excuse that he did not understand the meaning of the orders, and petitioning the council to reinstate him.

A petition from Wm. A. Jack Jr., and others, respectfully requesting that in conformity with section 2, chapters 5 and 8, of the license statutes, a vote by ballot be taken at the ensuing municipal election, whether the Board of Aldermen shall or shall not grant licenses for the sale of intoxicating liquors, was read and concurred in.

The two boards then met in joint convention for the election of city undertaker and dog constable. The following was the result.

City Undertaker, Michael McCormick.

Dog Constable, Darius M. Wilcox.

Joseph G. Southerland was elected special policeman, after which the two boards separated.

The following resolution was presented and unanimously passed by both branches:

Resolved, That His Honor the Mayor be and he is hereby requested to petition the Secretary of the Treasury to cause the automatic fog horn near Castle Hill to be removed on account of its great annoyance to the inhabitants of this city.

A feeling seemed to prevail among the members of the lower branch that the Board of Aldermen were in the habit of shirking responsibility and leaving the Councilmen to stand the brunt of the business, and in the case of Officer Dring it was thought to be evident that the Board of Aldermen were not going to take the first steps. Several members of the council expressed themselves freely on this subject and the following resolution was passed but not concurred in by the Board of Aldermen:—

Resolved, That the charge of His Honor, the Mayor, against Officer Dring be referred to the Committee on Police to report thereon as soon as practicable. The officer during the meantime to remain suspended from duty until further action of the Council.

The following petition was read and referred to the appropriate committee:—

The undersigned physicians, residents of the city of Newport, deeply impressed with the importance of having a well conducted Board of Health in our midst, respectfully petition your honorable body that by your authority such a board be instituted, consisting of physicians, scientists and men acquainted with the sanitary measures best adapted for the preservation of the health of our city. In order to secure efficiency and promptness they likewise petition that such a board be of moderate number, and be intrusted with the authority and power to act in all cases submitted to their observation and judgment. All of which is respectfully subscribed at Newport, April 1, 1878.

David King,	Henry E. Turner,
Wm. H. Brickhead,	Geo. Engs.
W. Lamont Wheeler,	Samuel W. Francis,
Francis H. Rankin,	H. R. Storer,
Geo. F. Winslow,	S. W. Butler,
G. M. Odell,	Geo. Terrill,
J. T. Butterick,	V. Mott Francis,

E. L. Cunningham.

The two boards then assembled for the second time in joint convention for the purpose of disposing in some way of the case of Officer Dring. Upon the subject matter being brought up the communications from the Mayor and Officer Dring were read again and the officer called upon for a more detailed account of the affair, who stated that he knew that he had been hasty and had done wrong, and he was before the council to apologize, but that it was not through fear on his account that he refused to obey orders, it was for the sake of his children. The first he knew of the order was through Officer Steel who came to him and told him that they had a very dirty job to perform, that the Mayor had ordered them to go to Murray's house and arrest him and bring him to the station house, or something to that effect: that he told Officer Steel that he would rather resign than expose his children to that dreadful disease, diphtheria: that he went at once to the Mayor and tried to explain the reason why he did not want to perform the duty allotted to him, and after talking a few moments he thought the Mayor satisfied as he was assigned to duty in another quarter, and nothing was then said about his being suspended, and he was not suspended for two or three days afterwards: that if he had understood the intent and meaning of the Mayor's order he should have cheerfully complied.

The Mayor said that so far as he himself was personally concerned the apology was ample but as a servant of the public he should not allow his personal feelings to influence him: remembering his former experiences in police affairs he should not again imperil the dignity of his office by assuming any responsibility in this matter. There were the facts before them and they must act on their own responsibility.

After some further remarks the two boards separated without action and the following resolution was the result.

Resolved—That in view of the past faithful services of Officer William C. Dring and the ample apology made by him, that he be and is hereby reinstated from this date on the police force, subject, however, to the loss of pay for the term of two weeks.

No further business coming before the board, they adjourned until the next regular monthly meeting in May.

AN ARREST CAUSED BY A DREAM.

Mrs. Klingersteen, of No. 80 Rivingston street, reported at Police Headquarters yesterday that she had a vivid dream the night before, in which she saw a burglar enter the house through a parlor window and take from her bedroom various articles of clothing and jewelry, with her husband's gold watch. When she arose in the morning she found that the house had been robbed in just the way she had dreamed. While she was telling her story two detectives came into the office with a well-known thief named David Eldricks. Mrs. Klingersteen immediately cried out that he was the man she saw in her dream. The prisoner was searched, and Mr. Klingersteen's watch was found in his possession.—[N. Y. Post.

Two brothers, while trying to cross Niagara River some distance above the falls, Monday, broke an oar and were carried over the Horse-Shoe Fall.

BUSINESS NOTICES.

INCURRING A TREMENDOUS RISK.

They incur a tremendous risk who sojourn or emigrate to reside in districts where malarial diseases are prevalent, without medicinal means of fortifying their systems against the periodic scourge. The danger to billious subjects, and to those who lack bodily stamina, is particularly serious. A preventive and curative agent of known antimalarial efficacy should be frequently used and constantly kept at hand by such persons; and on none can they rely with such certainty of protection and relief as Hostetter's Stomach Bitters. This grand specific roots out every vestige of the malarial poison system, and endows it with an amount of vital activity and repelling power that nullifies the influence of miasm. It also prevents and remedies disorders of the stomach, bowels and liver, which are particularly prevalent in malarious regions, and is an incomparable general invigorant.

A GENTLE HINT.

In our style of climate, with its sudden changes of temperature,—rain wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing consumption, hemorrhages, pneumonia, severe coughs, croup or any disease of the throat or lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10cts; regular size 75c. For sale by J. H. Taylor, Newport

APRIL, 1878.

APRIL 1st being the commencement of the second quarter of the year all bills contracted during the first quarter will be presented for payment. That quite a number of these bills will be paid within a short time is a foregone conclusion, for there are many grand people in this world. The undersigned is sure that if all receiving them could but fully understand how much he wants and needs to have them paid that there would be crowded times about the paying desk, and that the payers would leave with that tranquil and balmy condition of mind which follows an act of justice and right doing. Let all who read this strive for the tranquility and calm.

WEDNESDAY, APRIL 3, 1878.

THE SWALLOW.

Of all the birds that swim the air
I'd rather be the swallow;
And summer days, when days were fair,
I'd follow, follow, follow
The hurrying clouds across the sky,
And with the singing winds I'd fly.

My eager wings would need no rest
If I were but a swallow;
I'd scale the highest mountain crest
And sound the deepest hollow.
No forest could my path-way hide;
No ocean plain should be too wide.

I'd find the sources of the Nile,
I'd see the Sandwich Islands,
And Chimborazo's granite pile,
And Scotland's rugged Highlands;
I'd skim the sands of Timbuctoo;
Constantinople's mosques I'd view.

I'd fly among the isles of Greece,
The pride of great Apollo,
And circle round the bay of Nice,
If I were but a swallow,
And view the sunny fields of France,
The vineyards merry with the dance.

I'd see my shadow in the Rhine
Dart swiftly like an arrow,
And catch the breath of eglantine
Along the banks of Yarrow;
I'd roam the world and never tire,
If I could have my heart's desire!

—[Nathan Haskell Dole, St. Nicholas for April.

SUNDRIES.

Food for repentance.—Mince-pie eaten late at night.

A man with a trade dollar feels as if he has a full moon in his pocket.

"Bridget, have you seen my Ulster?" Bridget (usually very civil). "No, sure and I haven't; and what's more I don't want to. Me brother had one on his leg onst, and I never want to see another."

It is not strange that these disturbances among students continue. They have been set a bad example nationally. Over a year ago the electorial college started the biggest Hayes-in.

Why have the funny men of America been so dull this winter? Answer First—They haven't! Answer Second—Because it's been such an no-pun winter!—[Philadelphia Bulletin.

Stern parent (to young America). "When I was your age, Sir, I got up at five, cooked my own breakfast, and cleaned my own boots." Young dutiful. "Yes, but then you hadn't got me about you, who knew the ropes, to set you a better example."

The Kaffirs are in the habit of killing all their old people with religious ceremonies. When an old lady is to be sacrificed, she walks to the grave, arm in arm with two oldest sons, who chant, in a heart-broken voice, "Who will Kaffir mother now?"

The pupils in a school were asked to give in writing the difference between a biped and a quadruped. One boy gave in the following: "A biped has two legs and a quadruped has four legs; therefore the difference between a biped and a quadruped is two legs."

Lady (calling on intimate friend, who is unmarried, and only has one servant)—"Is your mistress at home, Sarah?" Sarah—"No, mam." Lady—"Then will you kindly say that I called to see if she would come and spend the evening with us?" Sarah—"Oh no, mum! A' sure she can't, 'cause it's my turn out."—[Judy.

DIGGING INTO THE 17TH CENTURY.

A few days ago in digging the foundation of the Brooklyn Bridge at the foot of Frankfort street the laborers brought to the surface several relics which bring to mind the old days of New York. Among them were three old bayonets nearly eaten up with rust, and found close to a number of cannon-balls. The bayonets evidently had belonged to Queen Anne muskets at the time of the English occupancy of the city, but the cannon-balls belong probably to the days of the redoubtable Dutch Governor and Director-General Wouter Van Twiller, and likely enough were fired at the city by the valiant Jacob Eelkins (in the employ of the English) on his passage up the Hudson in 1632 to Fort Orange (Albany) to trade with the Iroquois. More curious still, however, was the finding, within a stone's throw of the cannon balls, a Dutch pipe and a piece of tile. The former was probably the property of some respectable Dutch burger, and could it have had a phonograph attachment in its prime what tales it might relate! The tile evidently belongs to the same period as the pipe. On it is still to be traced the figure of Bel and the Dragon. Near by was another pipe, clearly of Indian manufacture, and some pieces of wampum, or seawan, for a long time the only circulating medium in use between the Dutch and Indians. The best article of wampum was manufactured by the Long Island Indians, and until a comparatively late period the Montauks on that Island, or rather their descendants, manufactured this shell money for the interior tribes. A clerk of John Jacob Astor, many years ago, informed the late Colonel Wm. L. Stone that he had visited Communipaw and purchased for his employer from the Dutch this article by the bushel, to be used by the fur dealer in his purchases among the distant savages. It might, perhaps, be a curious question how many bushels of wampum are invested, for example, in the hotel which bears the name of the great fur millionaire. Near the wampum, but on an upper stratum, were several bricks of yellow clay. These are of Holland manufacture. Before brick-kilns were established on Long Island by Governor Stuyvesant, in 1661, ships were loaded with bricks burned in Holland, and at first every dwelling was modelled after those the Dutch had left, and with storerooms for trade like those of Amsterdam and other trading towns in Fatherland. Thus at New Amsterdam and Fort Orange (Albany) rows of houses could be seen built of imported brick, with thatched roofs, wooden chimneys and the gable-ends always towards the street. A few of these remarkable Dutch houses were to be seen till within a year or two in this city, but not one now remains. —[N. Y. World.

TREE PLANTING.

Apropos of the fresh impulse given to the saving business of tree-planting in Connecticut, through the efforts of Secretary Northrop of the the State Board of Education, Rev. N. H. Eggleston of Williamstown sends to the Springfield Republican some startling statistics bearing upon the decrease of American forests. It is estimated that one iron furnace will consume the wood growing within a distance of three miles from it in every direction; or, in other words, that all the wood growing in an ordinary township is needed to support a single furnace. When we consider all the furnaces, lime kilns and manufacturing establishments that are eating up wood, besides all the lumber used in building and other arts, science and industries aside from private purposes, the yearly supply attains an enormous aggregate. According to the estimate of a few years ago, the pineries of Wisconsin and Michigan were being cut off at the rate 600,000 acres a year, an area equal to about one-third that of Rhode Island. In the year 1875 areas equal to the State of Vermont and New Hampshire were denuded, and at this rate any ordinary arithmetician can calculate the length of time that even the vast American forests will hold out. After such a showing, argument ought to be unnecessary to convince the public that generous and systematic tree-planting is one of the first and most pressing duties of society.

CATARRH

A PHYSICIAN'S TESTIMONY.

30 Years a Physician. 12 Years a Sufferer. Tried Regular Remedies. Tried Patent Medicines. Permanently cured by

SANFORD'S RADICAL CURE.

MESSRS. WEEKS & POTTER,—Sirs: I have practised medicine for thirty years, and have been a sufferer myself for twelve years with Catarrh in the nasal passages, fauces and larynx. I have tried everything in the catarrh market without any permanent relief, until finally I was induced to try a potent medicine (containing iron we also publish the very best to sell). I tried — and divers others, still I got hold of yours. I followed the directions to the letter, and am happy to say have had a permanent cure. Your RADICAL CURE is certainly a happy combination for the cure of that most oppressive and dangerous of diseases.

Yours, respectfully,
D. W. GRAY, M. D.,
Of Drs. D. W. Gray & Son, Physicians and Surgeons, Muscatine, Iowa.
MUSCATINE, Iowa, March 20, 1877.

The value of this remedy must not be overlooked in the case of these

SYMPATHETIC DISEASES,

Affections of the Eye, Ear, Throat, Lungs and Bronchial Tubes which in many cases accompany a severe case of Catarrh. The inflamed and diseased condition of the mucous membrane is the cause of all these troubles and until the system has been brought properly under the influence of the RADICAL CURE, perfect freedom from them cannot be reasonably expected.

It is but three years since SANFORD'S RADICAL CURE was placed before the public, but in that short time it has found its way from Maine to California, and is everywhere acknowledged by druggists as the speedy and to be the most successful preparation for the thorough treatment of Catarrh ever compounded. This fact will be deemed of more importance when it is coupled with the statement that within five years over 250 different remedies for Catarrh have been placed on sale, and to day, with one or two exceptions, their names cannot be recalled by the best-informed druggist. Advertising may succeed in forcing a few sales, but, unless the remedy possesses undoubted specific medicinal properties, it is absolutely certain to fall into merited obscurity.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for its use in all forms of Catarrh. Price $1.00. Sold by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line will illustrate the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement is tested its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM of SAFETY SIGNALS,

Janney Coupler, Buffer and Platform,

THE WHARTON PATENT SWITCH,

AND THE
